ANALYSIS AND REPORTING DECISION RULES
– MCAS-ALT

**Analysis and Reporting Requirements
 Massachusetts Comprehensive Assessment System (MCAS)
 Alternate Assessment
 Spring 2017**

This document details requirements for analysis and reporting. The final student level data used for analysis and reporting is described in the “Data Processing Specifications.” This document is considered a draft until the Massachusetts Department of Elementary and Secondary Education (ESE) signs off. If there are rules that need to be added or modified after said sign-off, ESE sign-off will be obtained for each such rule.

I. Contract Overview

A. New For 2017

- i. Ela and math students in grades 03-08 receiving an achievement level are reported under new achievement level codes and descriptors; however the calculations to arrive at the achievement level are not changing. The purpose of this change is to align the Alternate assessment achievement level descriptors and codes with MCAS 2.0 ones.
 - Students who earn an Achievement level above progressing (14,15,16), will receive a footnote on their portfolio feedback form, indicating that the final achievement level will be provided after Standard setting.

Legacy Achievement Level	New Achievement Level	MegaFile Code	Description
11	14	PM_A	Partially Meeting Expectations-Alt
12	15	M_A	Meeting Expectations-Alt
13	16	E_A	Exceeding Expectations-Alt

- ii. SPRP calculations are updated to match the general.
- iii. New grade-level comment codes; 70-84 are now available for use on the Portfolio Feedback form.
- iv. Changes to CPI and numin calculations. See pages 16 and 18

B. Test Administration(s) Adminid=5

II. Internal Data Sources

A. Scoring

- i. If score 1 does not match score 2 for any dimension, there must be a 3rd score for that dimension.
- ii. If there is a 3rd score for a dimension, that score is the score of record. Otherwise, the 1st score is the score of record.
- iii. If scorer 3 bubbles Strand not Submitted, the strand will be considered not submitted and no scores will be reported.
- iv. If Demonstration of Skills or Independence has a score of 'M' then both Demonstration of Skills and Independence must have a score of 'M'.
- v. A score of 'M' for scorer 1 and/or 2 will always have a 3rd score.

- vi. A score of '1' for Level of Complexity from scorer 1 and/or 2 will always have a 3rd score.
- vii. If Level of Complexity has a score of 1 then all other scores for that strand must be blank.
- viii. If 'At or Close to Grade Level Bubble' is 1 for a content area then at least one of the required strands for that content area must have a Complexity score of 3 or higher.
- ix. A score of 'M' for Demonstration of Skill and Independence counts as a 1 for analysis.
- x. The performance level for each strand is determined by a lookup table (see section VI.B) using scores from Complexity, Demonstration of Skills, and Independence.
- xi. Bubbled comments that do not have text associated with them will be suppressed.
- xii. Strands with a Level of Complexity score of 1 will be treated as not submitted for analysis. If a required strand has a Level of Complexity score of 1, then the resulting performance level will be incomplete.
- xiii. In grades 03-08 the content strands that a student is exposed to in math differs by grade. The strand turned in is determined by the strand number. For grade 05 there are six available strands. For all other grades there are five.
- xiv. For High School sciences DP sets the SciTry variable to indicate which science test was submitted for the current year. SciTry is calculated by reconciling the subject indicated by scorer 1 with scorer 3.
 - '1' = Biology
 - '2' = Chemistry
 - '3' = Physics
 - '4' = Technology/Engineering
 - For grades 10+ where science was not submitted, default sciTry to 1.
 - SciTry is blank for grades 03-08.
 - DA calculates the final reporting SciTry value as rptScity.

B. Data Processing (DP)

i. Amend Flag

- The Amend flag for each content area is set by DP based on test booklet reconciliation and the ESE Breach List on an individual student basis. The default Amend flag value for all students is '0'.
- See the Amend Flag Lookup (Measured Progress Document) for valid Amend Flag values and their impact on reporting.

III. External Data Sources

A. Breach List

- i.* Students who are considered a security breach are provided by the ESE in the Breach List. These students are identified as Security Breach: Cheating and instructions for processing and reporting the tests on an individual case basis are provided.

- ii. Data Analysis adds necessary Amend flag values (> '1') and instructions to the Amend Flag Lookup for each distinct scenario on the Breach List.
- iii. Data Processing applies any necessary changes to the student record based on the ESE instructions, and applies the corresponding Amend Flag value from the lookup to the student for Data Analysis processing.

B. SIMS

- i. Student demographic data is provided by the ESE for reporting use. Please see the Data Processing specifications for internal validations and requirements of the data.
- ii. **Summarize**
 - Summarize is populated in SIMS as either '1' or '0' or blank:
 - a. Summarize = '1' indicates that the student is expected to test in the subjects specified for their grade and should be included in aggregations (where applicable). Their results are included in accountability determinations.
 - Students in Grades 03-08 are all expected to test.
 - Students in Grade 10 (or students skipping grade 10 who have not yet been tested) are expected to test in Math and ELA, and are expected to test or to have prior scores for Science. They will have Summarize = '1'.
 - b. Summarize = blank in SIMS is only applicable to students from the student directory that do not link to SIMS.
 - c. Summarize = '0' indicates that the student is not expected or required to test at this time for accountability. These students are excluded from aggregations (except for grade 09 specific aggregations). Their results are not counted towards accountability determinations. This includes, but is not limited to: student grade 09 students, students that are retesting to meet graduation requirements in a subject they previously failed or missed, students that are retesting to increase their scores for scholarship purposes, or students that are new to Massachusetts.
 - See the Data Reconciliation section IV.A for Data Processing rules for determining the final Summarize source or default value in the views for DA based on Test Grade and SIMS data.
- iii. **Banked Prior Achievement Level**
 - Only applicable for Science. All references are specific to science; in the event that these determinations are needed for Math or ELA, the corresponding Math and ELA specific fields would be used.
 - High_sPerf in SIMS contains the prior high achievement level to be considered during participation status assignment. ELA and Math fields are High_ePerf and High_mPerf respectively, and are expected to be blank for 2013-2014 for HS students with Summarize = '1'.
 - SciNTL='1' indicates a student has previously participated in Science as a first-year LEP student. These students are considered to have prior results in Science during the participation status assignment hierarchy. Corresponding fields for Math and ELA do not exist currently in SIMS.

- All other fields with historical score or performance information, including the CD fields, are ignored during the participation status determination for students.
- Data are stored in DPRaw for DA in [sub]PerfLevelHigh (for all subjects) and [sub]NTL fields (for Science).

iv. **SciNTL**

- If SciNTL = '1' a student is considered to have previously tested in science as a first-year LEP student and was reported with a sTestStat = 'NTL'.

C. Grade Span Lookup

- The ESE provides a grade span lookup for all public official schools. These are joined to student data based on sprp_sch in tblStudem.
- Measured Progress will provide the ESE with a list of any public schools that have student's assigned to them that are not included in the lookup, resulting in blank grade span data based on the Preliminary data release.
- All public schools must have a grade span for final post-discrepancy reporting. For earlier releases grade spans may be blank for schools missing from the lookup.

D. Discrepancy Site

- Data from preliminary reporting is posted to the discrepancy site for clean up by the field and the department.
- See the Discrepancy Site Requirements for more details on which fields are available for editing at each user level.
- Data Processing re-processes data post-discrepancy to incorporate the updated information and discrepancy resolutions from the ESE for DA for final reporting.
- During final processing all information from the discrepancy site is considered final and is maintained, however, changes to certain fields require additional data audits and/or recalculation of student participation status to ensure consistency. See the Data Reconciliation section for these details.

E. Alternate Assessment Override

- Based on preliminary results from the Alt and Standard Results data file, the ESE may identify any students whose Standard Assessment results should be reported instead of their Alternate Assessment results during final reporting (subject specific).
- The ESE will provide this list to Data Processing with the discrepancy resolutions.
- DP will set the amend flag to appropriately identify these students for DA.

IV. Data Reconciliation

The following cleanup will be performed on student level data prior to analysis once demographic data and reconciled test information are compiled to ensure consistency. Calculations are performed in the order listed below, and audited values are used in each subsequent check and for all analysis and reporting, as applicable:

A. Summarize (performed by DP)

- i.* If test grade is in 03-08, summarize is defaulted to '1' for all students, regardless of SIMS value.
- ii.* If test grade is '09' summarize is defaulted to '0' for all students, regardless of SIMS value.
- iii.* If test grade is '10':
 - If student grade is \leq '09':
 - a. If the student submitted both Math and ELA (Alt or Standard), then summarize = '1'.
 - b. Otherwise, summarize = '0'.
 - If student grade = '10','11','12', or 'SP' then summarize is taken from SIMS. If summarize is missing, or if student grade is missing, it is defaulted to '0'.
- iv.* The same rules are applied post-discrepancy, except summarize is taken from the updated Discrepancy data in place of SIMS. If summarize is updated during discrepancy reporting the participation status is set to blank to be reassigned.

B. LEPFirst/ YrsInmass/ YrsInmass_num

- i.* LEPfirst is provided in SIMS and is not audited by Measured Progress
- ii.* YrsInmass and YrsInMass_num are not audited by Measured Progress

C. LEP

- i.* If LEPFirst = '1' then update existing LEP to '1'.

D. LEPFLEP

- i.* If LEPFirst = '1' or LEP = '1' or LEPFormer (DA Use: "flep_off" in dpraw) = '1' then update existing LEPFLEP to '1'.

V. Official School and Official District Code

A. Terminology:

- i.* Discode = MP Testing Discode from DPRaw (See DP Specifications)
- ii.* SchCode = MP Testing SchCode from DPRaw (See DP Specifications)
- iii.* SendDiscode = Sending District from SIMS
- iv.* SimsDisCode = Official Discode from SIMS
- v.* SimsSchCode = Official SchCode from SIMS
- vi.* Testing Orgtype = Testing school (discoed+schcode) Org type
- vii.* OrgType = SPRP school org type
- viii.* Exceptions List is provided to MP by the ESE.
- ix.* (DA Use): The exceptions list is stored in daTestSitelookup

B. Official District (sprp_dis)

- i. If the student's testing discode+schcode is on the *Exceptions List* (System+School) then the official district is the sprp_dis from the *Exceptions List*.
- ii. If the student's testing orgtype is 6, 13 or 22 then the official district is set to the discode concatenated with four zeroes.
- iii. Otherwise the official district is the sending district from SIMS (senddiscode) if it exists, concatenated with four zeroes at the end. If senddiscode is blank the official district is set to '99999999'.

C. Official School (sprp_sch)

- i. If the student's testing school (discode+schcode) is on the *Exceptions List* (System+School) then the official school is the sprp_sch from the *Exceptions List*.
- ii. If a student is from a collaborative school (testing OrgType = 4) then the official school is = 05XX0000 where XX is the 3rd and 4th digit of the testing district code.
- iii. If the student's testing orgtype is 25 or 31 then the official school is the official school code from SIMS (simsDiscode + SimsSchcode). If the simsDiscode and simsSchcode are blank the official school is set to the testing school code (discode+schcode). If the official school from SIMS turns out to be orgtype 22, then use the Exceptions list for official school.
- iv. Otherwise the official school is the testing school (discode+schcode).

D. Setting of Orgtype

- i. Orgtype is based on the official school code
- ii. Using the official school code link to the MCAS org data file (DA use: icore) and pull the org type (DA use: Reportcode2).
 - In the event that an orgtype is not assigned, default orgtype to 'X'. This is expected due to some SPRP schools not being in the Org data file.

E. YrsInSch and YrsInDis

- i. If sprp_sch or testing school (discode+schcode) = the official SIMS school code from June SIMS (simsDiscode + simsSchcode) then use YrsInSch value from SIMS. Otherwise set YrsInSch = '1'.
- ii. If sprp_dis = SendDiscode+0000 from June SIMS then use the YrsInDis value from SIMS. Otherwise set YrsInDis = '1'.

F. Oct_Enrol (enrolled in same location since Oct)

- i. If sprp_sch or testing school (discode+schcode) = SIMS school code from June SIMS (simsDiscode+simsSchcode) then OctEnr = Oct_off from SIMS. Otherwise set Oct_Enr = '0'.

G. Con_Enrol (continuously enrolled for 2 years)

- i. Only populated for students in the grade 10 view, otherwise blank.

- ii. If sprp_sch or testing school (discode+schcode) = the official SIMS school code from June SIMS (simsDiscode + simsSchcode) then use con_enr_sch value from SIMS. Otherwise set con_enr_sch = blank.
- iii. If sprp_dis = SendDiscode+0000 from June SIMS then use the con_enr_dis value from SIMS. Otherwise set con_enr_dis = blank.
- iv. ConEnr_sta is taken from SIMS.

VI. Student Participation and Reporting Status

A. Basic Definitions

i. **Test Attemptedness** (by subject)

- A strand was submitted if there is at least one scoring dimension with a valid score
- Attempt: A student participated if at least one required strand was submitted
- Did not attempt: Students did not submit any required strands.

ii. **Not Tested Indicators** (by subject)

The following Not Tested reasons may be bubbled on the student's answer booklet.

- Tested Standard MCAS
- Medically Excused Absent (MED)

iii. **Transfer**

- If Active_Test ≠ '1' and at least one required strand is missing the student is considered a transfer student.

iv. **Void**

- Students whose only answer booklet has been voided (Void = '1') are considered "Void".

v. **Prior Results** (by subject)

Prior results currently only apply to HS Science. All references to High_sPerf and SciNTL should be considered subject specific in the event that ELA and Math are updated to allow for prior result determinations.

- **No Prior Results**
Students with a blank High_xPerf and sciNTL ≠ '1' from SIMS are considered to not have prior results.
- **Previously Passed**
Students with a High_xPerf from SIMS in ('A', 'P', 'NI', 'A_A', 'P_A', or 'NIA') are considered to have previously passed the subject.
- **Previously Failed**
Students with a High_xPerf from SIMS in ('F', 'PRG', 'EMG', 'AWR', and 'INP') are considered to have previously failed the subject.
- **Previously First Year LEP**
 - a. Students with SciNTL = '1' from SIMS are considered to have previously tested in science as a First Year LEP student and were reported as TestStat = 'NTL'.

- Applies to Science only, corresponding variables for ELA and Math do not currently exist in SIMS.
- If High_sPerf is not a Previously Passed status and SciNTL = '1', the student is considered Previously Failed.

B. Participation Status Assignment Hierarchy (by subject):

- i. Breach List (Amend Flag > '1:' continue through assignment, breach instructions will trump all reporting instructions)
- ii. Summarize = '1' or Grade='09' without prior results:
 - If the student **meets attemptedness** Tested (*PartStatus='A'*).
 - If the student did not attempt:
 - a. If subject = 'ELA' and First Year LEP then: **Not Tested, LEP** (*PartStatus='F'*)
 - b. Otherwise if MED then: **Not Tested Medically Excused** (*PartStatus='G'*)
 - c. Otherwise if Tested Standard MCAS is indicated then : **Tested MCAS Standard Assessment** (*PartStatus='Z'*)
 - d. Otherwise: **Not Tested Absent** (*PartStatus='E'*)
- iii. If (Summarize='1' or Grade='09') and Previously Failed:
 - If the student *meets attemptedness* then: **Tested Accountable Retest** (*PartStatus='C'*).
 - If the student *partially attempted* or *did not attempt* then: **Not Tested Accountable Retest** (*PartStatus='L'*).
- iv. If (Summarize='1' or Grade='09') and Previously Passed: **Previously Passed** (*PartStatus='K'*)
- v. Summarize = '0' and grade≠'09' (regardless of any prior test results):
 - If the student meets attemptedness: **Not Accountable Retester** (*PartStatus='W'*).
 - If the student did not attempt: **Not Tested Not Accountable** (*PartStatus='J'*).

C. Participation Status Summary

- i. **Note there are some participation statuses in the chart that are not in the hierarchy above. These are not achievable in the alt and will only come out of the discrepancy site.**

* Student results achieved while First-year LEP, or students currently First-year LEP (see rptLEPFirst calculation) are reported with TestStat = "NTL" in place of listed TestStat (all subjects). See Calculations by Participation Status Summary Table for more details.

D. Post-Discrepancy Assignment

- i. DA only “recalculates” participation statuses for students with a blank participation status during post-discrepancy processing. All other participation statuses are maintained as they are provided from the discrepancy data.

- ii. DP will reset participation statuses to blank prior to final processing for the following discrepancy events so DA will recalculate a new status:
- Student test grade is changed.
 - Summarize is changed (not applicable in unchanged grades 03-08, 09).
 - First year LEP status is changed.
 - Answer document is still void (entire book is suppressed).
 - Answer document(s) are added or removed for a student.
 - Prior results (high_xPerf, sciNTL) are changed for a student.

¹ rptLEP is LEPFirst for all grades/subjects/participation statuses that do not have prior results. It is a calculated combination of LEPFirst and prior LEP First status for Accountable partstatuses with prior results. See calculations section for details.

² Assess exceptions for ELA: there is an additional condition of participation on the Access test. See calculation specifics for details.

³ If Summarize = 1 then Assess = 0. If Summarize = 0 then Assess is blank.

*Grade = 09 students are assigned participation statuses as if Summarize = '1'. Perf2, CPI, Numin, and Assess are populated for calculations but set to blank in the Megafile deliverable.

Note: "(M/S 1)" indicates that rptLEP[sub] may also be '1' in Math and Science for the listed participation statuses.

A. Student Level Calculations

i. StudentID (tblStudemo)

- StudentID = rptStudentID from DPRaw.
- If StudentID begins with '8' it will be set to blank.

ii. Grade Span (tblStudemo)

- Calculated using a lookup file provided by the ESE.

iii. Reporting First Year LEP Status (rptLEP[sub]) (tblStudemo)

- RptLEP is determined for each subject based on current year partstatus, test attemptedness, First Year LEP status, and Prior First Year LEP Status (where applicable) in order to determine if a student's results should be considered achieved while under First-Year LEP status or as currently First-year LEP. This takes into consideration the prior status of the student when prior results are eligible for accountability.
- For all participation statuses that are considered Not Accountable rptLEP[sub] = LEPFirst.
- Otherwise if the student is considered Accountable then:
 - If the student has prior results:
 - If the student meets attemptedness this year then: rptLEP[sub] = LEPFirst.
 - If the student does not attempt this year then:

1. rptLEP[sub] = '1' if either LEPFirst = '1' or SciNTL = '1'.
2. Otherwise rptLEP[sub] = '0'.

b. If the student does not have prior results then rptLEP[sub] = LEPFirst..

iv. **SpecialEd** (tblStudemo)

- If a student is considered Tested or Retested Alternate Assessment (accountable or not accountable) in any subject, then Sped_off = '1'. Otherwise it is '0'.

v. **ParentLetter** (tblStudemo)

- The Parent Letter flag is set to '0' to indicate that the student should not receive a Parent/Guardian Report or Student Results Label in the following cases:
 - a. If a student is classified as not tested or breach in each required subject then ParentLetter = '0'.
- Class Pack Identifiers (Measured Progress) for printing the Parent version of the Parent/Guardian Report are produced for all students with ParentLetter = '1'.

vi. **General Portfolio Comments** (tblStuDemo)

- Scorers have the option of leaving comments for individual strands as well as for the portfolio as a whole.
- Comments will be sorted numerically (6-52) and then alphabetically (A-Z).
- Only the first 4 general portfolio comments will be kept and reported on the portfolio feedback form.
- If a student did not receive a performance level of incomplete and the student has less than 4 general portfolio comment codes, then
 - a. Data Analysis will add comment code 50 as a general portfolio comment. If the student still has less than 4 general portfolio comment codes, Data Analysis will add 51 as a general portfolio comment.

vii. **Strand Specific Comments** (tblStuScore)

- Scorers have the option of leaving comments for individual strands as well as for the portfolio as a whole.
- Comments will be sorted numerically (6-52, 70-83) and then alphabetically (A-Z).
- Data Analysis will set comment code 52 automatically when the Level of Complexity score is '1'.
- Only first 2 strand specific comments will be kept and reported on the portfolio feedback form.
- For Strand Specific comments, if the student's final score for a particular strand does not have an 'M' for Independence and Demonstration of Skill, then comments that refer to an 'M' in either of these dimensions will be suppressed.
- For strand specific comments, if a student's final score for a particular strand has an 'M' for Independence or Demonstration of Skills then the student will receive at least one comment that refers to an 'M.' (This is handled at scoring not programmatically)

- If the performance level for a particular subject is Student took the Standard MCAS then suppress all strand specific comments for that subject.
- For grades 11, 12, and 12+ suppress the comment “Strand required but not submitted” for all strands.
- “P” will not be set by data processing or data analysis as a comment code

viii. Performance Level (tblStuPL)

- A content area has a performance level of Incomplete when one of the following occurs:
 - a. When not all of the required strands are submitted for a content area, the content performance level is Incomplete.
 - b. If Demonstration of Skills and Independence = M:
 - For contents requiring 3 strands, if there are 2 strands or more M’s in either Independence or Demonstration of Skills, the content performance level is Incomplete.
 - For contents requiring 2 strands, if there is 1 strand or more M’s in either Independence or Demonstration of Skills, the content performance level is Incomplete.
- For content areas that are not incomplete, the performance level is found using the overall strand performance level and the lookup table.
 - a. The overall strand performance level for a content requiring 3 strands is found by averaging the performance levels of the 3 final strands of record. If the average is between 3 and 3.9 round down, otherwise, round to the nearest whole number.
 - b. When more than 3 strands are submitted for a content area that requires the choice of 3, use the 3 strands that yield the highest overall strand performance level. If more than 3 strands have the same performance level, sort the strands by self-evaluation, complexity, and generalized performance, and select the top 3 based on those criteria.
 - c. The overall strand performance level for a content requiring 2 strands is determined by averaging the performance levels of the 2 strands and rounding down.
 - d. If the calculations for strand score average yield a performance level of 11, Needs Improvement, then check that the student meets other requirements to earn Needs Improvement before assigning the final performance level.
- Needs Improvement:
 - a. Grades 03-08 only
 - For grades 03-08, a student must complete 3 strands (including those required) in a specific subject and earn a performance level of 4 for each of the strands in order to earn an overall performance level of *Needs Improvement*. If the student submits fewer than 3 strands with a performance level of 4, the student will be reported as Progressing.

- If a student submits more than 3 strands when 2 are required, the 2 required strands and the highest scoring additional strand will be used to determine Needs Improvement.
- b. Competency: Grades 09-12+ only
 - The Competency List is provided by the ESE and lists students in grades 09-12+ who were judged by a panel of competency experts to be at a performance level of *Needs Improvement* or above. Only students on the Competency list are eligible for a performance level of *Needs Improvement* or above. The students must also meet the following criteria:
 1. For ELA, a student must complete the 3 required strands and earn a performance level of 4 for each of the strands.
 2. For Mathematics, complete all 5 strands and earn a performance level of 4 for each of the strands.
 3. For Science, a student must complete all 4 strands in one discipline and earn a performance level of 4 for each of the strands.
 - If a student is on the Competency List and the requirements are met, the earned scores are reported but the performance level is taken from the list.
 - If a student is on the Competency List and the requirements are not met a discrepancy list will be given to program management for resolution.
 - If a grade 09-12+ student earns a *Needs Improvement* performance level but is not on the Competency List, then the student will be reported as Progressing.
 - For 14-15, Math students will be tested against the 13-14 math strands.

ix. Aggregation/Accountability Results (tblStuPL)

Aggregation and Accountability Results combine prior and current results, where applicable.

- **Perf2** (*MP aggregate calculations*)
 - a. Populated with the achievement level for aggregate calculations and the megafile.
 - b. Perf2 is blank for all students with rptLep[sub] = '1'.
 - c. Perf2 = rPerfLevel for Tested Alternate Assessment that are not first-year LEP (PartStatus = 'A' and rptLEP = '0'). It is translated to standard assessment achievement levels (1-4).
 - d. Perf2 = the highest achievement level between PerfLevel and [sub]PerfLevelHigh for Accountable Retest Alternate Assessment students that are not first-year LEP (PartStatus = 'C' and rptLEP = '0'). It is translated to standard assessment achievement levels (1-4).
 - e. Otherwise, Perf2 is calculated in general MCAS.

x. NumIn (tblStuPL for Megafile)

- For HS students and 5 and 8 Science, the subject specific numin field is set to '1' if the student is assigned CPI Points for the subject. Otherwise it is '0'. Fields are prefixed with *e/m/s* in the megafile.

- For 03-08 ela and math, See the calculations by participation status summary for a list of statuses that result in numin = '1'. Because this calculation is only be done at grade 03-08, if Teststat is 'T' then numin='1'. Otherwise it is '0'.

xi. Assess (tblStuPL for Megafile):

- Blank since alt mega file is only produced in June

xii. Composite Level of Complexity (tblStuPL)

- All students who receive an alt performance level will have a Composite Level of Complexity (CLC) computed.
- Composite Level of Complexity is calculated using the Complexity scores from the final strands used to calculate the content performance level, the 'At or Close to Grade Level' bubble (if it exists), and a lookup table, which is based on the number of strands.
- Students attempting Needs Improvement Grade 03-08
 - a. When a two strand portfolio contains the required strands plus at least one additional strand apply the rules for a three strand portfolio.
 - b. If there is more than one additional strand submitted use the strand with the higher complexity score to compute the CLC.
- Incomplete Portfolios
 - a. For portfolios with not all required strands submitted, only the required strands that were submitted will be used to compute the CLC.
 - b. When a three strand portfolio has a strand missing, apply the rules for a two strand portfolio.
 - c. When a two or three strand portfolio has only one of the required strands, apply the rules for a one strand portfolio.

xiii. Competency: Updating ELA_CD, Mat_CD, and Sci_CD (tblStuPL)

- These variables represent whether or not a student has met the testing graduation requirement for the subject, combining prior CD information from SIMS with the current test results.
- The updated CD fields begin with the prior CD value from SIMS (studemo SIMS_*[sub]*CD) for all students, regardless of participation status on this year's test. The prior value may be blank for students that have not previously tested in a subject.
- The CD Status from SIMS is then updated using the current test results if and only if it increases, otherwise the prior value is retained:
- For Math and ELA:
 - a. If rPerflevel = '11' then CD = '1'.
 - b. Otherwise if rPerflevel in ('12', '13') then CD = '2'.
 - c. Otherwise CD is '0'.
- For Science:
 - a. If rPerflevel in ('11', '12', '13') then CD = '1'.

b. Otherwise CD is '0'.

xiv. Composite Performance Index Points (daStuCPI)

- For HS students and grade 05 and 08 science, ESE provides Measured Progress with the number for students tested in MCAS and MCAS-Alt. These counts are provided at the subject level (i.e. ela, mat and sci). DA use: These counts are stored in tblStuCPILookup.
- For grades 03-08 ela and math, CPI points are not calculated.
- CPI Points are assigned based on results used for Aggregations and Accountability.
- Students with Test Status='T' or (PartStatus="C" and rptLEP=0) will receive CPI points.
- Otherwise CPI points will not be assigned.
- Breach cases will not receive CPI points.
- Assign cpi points for students with Test Status="T" as follows
 - a. Assign cpi points based on performance level as follows for performance levels other than PRG
 - CPI=100 for PerfLevel=A_A or P_A.
 - CPI=75 for PerfLevel=EMG or NIA.
 - CPI=50 for PerfLevel=AWR
 - CPI=25 for PerfLevel=INP.
 - b. Assign cpi points based on performance level as follows for PRG
 - Step 1:
 1. CPI=100 for PerfLevel=PRG and NatureofDis=01, 09, 10, 11, or 13 and LevelOfNeed=04.
 2. CPI=75 for PerfLevel= PRG and NatureofDis not equal to 01, 09, 10, 11, or 13 or LevelOfNeed not equal to 04
 - If Step 1 results in the number of students with 100 CPI points being less than 1.0499 percent of the total tested students in both the alt and standard MCAS then proceed to Step 2:
 1. CPI=100 for PerfLevel=PRG and NatureofDis=01, 09, 10, 11, or 13 and LevelOfNeed=03 or 04.
 2. CPI=75 for PerfLevel= PRG and NatureofDis not equal to 01, 09, 10, 11, or 13 or LevelOfNeed not equal to 03 or 04
 - If Step 2 results in the number of students with 100 CPI points being less than 1.0499 percent of the total tested students in both the alt and standard MCAS then proceed to Step 3:
 1. CPI=100 for PerfLevel=PRG and NatureofDis=01, 09, 10, 11, or 13 and LevelOfNeed=01, 02, 03, or 04.
 2. CPI=75 for PerfLevel= PRG and NatureofDis not equal to 01, 09, 10, 11, or 13 or LevelOfNeed not equal to 01, 02, 03, or 04.

Test	Alt Performance Level:	CPI Points
Alternate Assessment (Only when re-assigning based on prior-year Alt Results for Accountability)	A_A P_A PRG	100
	EMG NIA	75
	AWR	50
	INP	25

xv. **Achievement Level Coding**

- The MCAS Standard Assessment has four possible achievement levels, assigned to students using the raw to scale score lookup provided by psychometrics.
- Alternate Assessment achievement levels are translated to their corresponding standard assessment achievement level prior to computing any aggregate calculations that include alternate assessment achievement level results as shown below:

MCAS Achievement Level	MCAS Description	MCAS Alt Achievement Level	MCAS Alt Description
1	03-08: Warning (W) HS: Failing (F)	7	Incomplete (INC)
		8	Awareness (AWR)
		9	Emerging (EMG)
		10	Progressing (PRG)
2	Needs Improvement (NI)	11	Needs Improvement (NIA)
		14*	Partially Meeting Expectations-Alt (PM_A)
3	Proficient (P)	12	Proficient (P_A)
		15*	Meeting Expectations-Alt (M_A)
4	Advanced (A)	13	Advanced (A_A)
		16*	Exceeding Expectations-Alt (E_A)

*Used only for grade 03-08, ela and math.

B. Aggregate Level Calculations

i. Aggregation Rules

- These rules are applied to all aggregate calculations. Any additional rules specific to a particular calculation will be listed under the rules for the calculation.
- Tested Students (PartStatus = 'A') are included in aggregations.
